### § 203.6

or will forward the request to the contracting authority designated by the DoD Component to act for that installation. The government is required to follow the rules and regulations for purchase orders as outlined in the FAR (48 CFR part 13). As a result, the government cannot direct awards to a specified supplier unless the procurement is under \$2.500, and then only if the cost is comparable to other suppliers. For procurements over \$2,500 but under \$100,000, the acquisition is reserved for small businesses, unless there is a reasonable expectation that small businesses could not provide the best scientific and technological sources consistent with the demands of the proposed acquisition for the best mix of cost, performance, and schedules. Furthermore, the award must be on a competitive basis. In addition to proposing potential providers, the application for technical assistance may indicate specific criteria or qualifications that are deemed necessary by the RAB/TRC for the completion of the project to their satisfaction. This information will be used to assist the Department of Defense in preparing a bidders list. The Department of Defense will solicit bids from those providers meeting the criteria and will select a provider offering the best value to the government. Should the procurement process identify a qualified respondent other than the proposed provider(s) identified by the RAB/TRC or fail to identify any qualified respondents, the RAB/TRC will be consulted prior to the award of a purchase order. If the Department of Defense determines that the TAPP request represents an eligible project for which no funds are available, it will ask the RAB or TRC to specify whether the project should be reconsidered upon the availability of additional funds.

(e) Reporting requirements. The applicant must assure that copies of delivered reports are made available to the Department of Defense and must comply with the reporting requirements established in §203.14 of this part.

# § 203.6 Cost principles.

(a) Non-profit contractors must comply with the cost principles in OMB Circular A-122. Copies of the circular

may be obtained from EOP Publications, 725 17th NW, NEOB, Washington, DC 20503

(b) For-profit contractors and subcontractors must comply with the cost principles in the FAR (48 CFR part 31).

### § 203.7 Eligible applicants.

Eligible applicants are community members of RABs or TRCs. Furthermore, the RABs or TRCs must be comprised of at least three community members to ensure community interests are broadly represented. The applicant must certify that the request represents the wishes of a simple majority of the community members of the RAB or TRC. Certification includes, but is not limited to, the results of a roll call vote of community members of the RAB or TRC documented in the meeting minutes. Other requirements of the application are detailed in §203.9 of this part.

### § 203.8 Evaluation criteria.

The Department of Defense will begin the TAPP procurement process only after it has determined that all eligibility and responsibility requirements listed in §§ 203.6, 203.7, and 203.9 of this part are met, and after review of the specific provider qualifications as submitted in the narrative section of the application. In addition, the proposed TAPP project must meet the eligibility criteria as specified in §§ 203.10 and 203.11 of this part. Projects that fail to meet those requirements relating to the relevance of the proposed project to the restoration activities at the installation will not be approved.

## § 203.9 Submission of application.

The applicant must submit a TAPP application to begin the TAPP procurement process. The application form is included as appendix A of this part and can be obtained from the DoD installation, the DoD Component head-quarters, or directly from the Department of Defense, Office of the Deputy Under Secretary of Defense for Environmental Security, 3400 Defense Pentagon, Washington, D.C. 20301–3400. The applications will not be considered complete until the following data elements have been entered into the form:

(a) Installation.

- (b) Source of TAPP request (names of RAB or TRC).
- (c) Certification of majority request.
- (d) RAB/TRC contact point for TAPP project.
  - (e) Project title.
- (f) Project type (e.g. data interpretation, training, etc.).
- (g) Project purpose and description (descriptions, time and locations of products or services desired).
- (h) Statement of eligibility of project.
  - (i) Proposed provider, if known.
- (j) Specific qualifications or criteria for provider.

#### § 203.10 Eligible activities.

- (a) TAPP procurements should be pursued by the RAB or TRC only to the extent that Federal, State, or local agencies responsible for overseeing environmental restoration at the facility do not have the necessary technical expertise for the proposed project, or the proposed technical assistance will contribute to the efficiency, effectiveness, or timeliness of environmental restoration activities at the installation and is likely to contribute to community acceptance of those activities.
- (b) TAPP procurements may be used to fund activities that will contribute to the public's ability to provide advice to decision-makers by improving the public's understanding of overall conditions and activities. Categories of eligible activities include the following:
- (1) Interpret technical documents. The installation restoration program documents each stage of investigation and decision-making with technical reports that summarize data and support cleanup decisions. Technical assistance may be provided to review plans and interpret technical reports for community members of RABs and TRCs. These reports include, but are not limited to:
- (i) Installation restoration program site studies, engineering documents, such as site inspections, remedial investigations, feasibility studies, engineering evaluation and cost analyses, and decision documents (including records of decision);
- (ii) Risk assessments, including baseline and ecological risk assessments conducted by the installation; and

- (iii) Health assessments, such as those conducted by the Agency for Toxic Substances and Disease Registry (ATSDR).
- (2) Assess technologies. Technical assistance may be provided to help RAB/TRC community members understand the function and implications of those technologies selected to investigate or clean up sites at the installation.
- (3) Participate in relative risk site evaluations. Technical assistance may be provided to help RAB/TRC community members contribute to the relative risk evaluation process for specific sites.
- (4) Understand health implications. Technical assistance may be provided to help RAB/TRC community members interpret the potential health implications of cleanup levels or remedial technologies, or to explain the health implications of site contaminants and exposure scenarios.
- (5) Training, where appropriate. Technical trainers on specific restoration issues may be appropriate in circumstances where RAB/TRC members need supplemental information on installation restoration projects.

# § 203.11 Ineligible activities.

The following activities are ineligible for assistance under the TAPP program:

- (a) Litigation or underwriting legal actions, such as paying for attorney fees or paying for a technical assistance provider to assist an attorney in preparing legal action or preparing for and serving as an expert witness at any legal proceeding regarding or affecting the site.
- (b) Political activity and lobbying as defined by OMB Circular A-122.
- (c) Other activities inconsistent with the cost principles stated in OMB Circular A-122, "Cost Principles for Non-Profit Organizations."
- (d) Generation of new primary data, such as well drilling and testing, including split sampling.
- (e) Reopening final DoD decisions, such as the Records of Decision (see limitations on judicial review of remedial actions under the Comprehensive
